

REMARKS

The specification has been amended to include sequence identifiers for all amino acid and nucleic acid sequences disclosed therein and to correct minor typographical errors. The amendment to the paragraphs beginning at page 55, line 1 and line 8 find support, for example, in Table 6 at page 54 of the specification. Further, the sequences of SEQ ID NOS:13-18 include the R1 sequence shown in Table 6, and the sequences of SEQ ID NOS:19-24 include the R2 sequence, which, as stated in Table 6, is the sequence complementary to R1. The R1 and R2 sequences also find support, for example, at page 55, lines 16-19, of the specification as filed. No new matter has been added by the present amendment.
